TELEPHONE OR VERBAL CONVERSATION RECORD

Subject of Conversation: Chip Comparators

Date: 28 April 64

Telephone Number: STAT

Information or Action Sought

Called to find out status of electronics

They are getting a random vibration out of axis with high torque giving a counting error. They have disamble and are checking to find where the noise is coming from (only on slewing mode)

Information Given or Action Taken

They feel this due to some mechanical shock due to a gearing or way (slide) problem which a matter of locating and correcting.
